|------------------|----------------|----------------|

HOW TO USE

- 1.When pressing the ON/OFF/Time Setting button, the machine will enter into the standby mode.
2. Place the finger or toe into the lamp shade, the machine will turn on automatically.
- 3.Press Time Setting, the machine will start the countdown from 60S.
- 4.One more press Time Setting, the machine will start the countdown from 30S.
- 5.After operation, long press the ON/OFF button to turn the machine off.

Special remind:

- 1.Don't touch the lamp with wet hand, this may cause the electronic shocking.
- 2.Don't glare to the light during the machine is working, this may damage your eyes.

Recharge the battery:

If the battery indicator is on red, then you should charge it with DC 5V==2A power adapter, otherwise it will cause the machine breakdown.
